

## Thank you to all the Unsung Heroes working in assisted living across Massachusetts!

*Throughout the pandemic, assisted living staff have been Unsung Heroes, keeping older adults safe, healthy, and connected.*

**- Thank You -**

On behalf of the 232 certified assisted living residences in Massachusetts, the **Massachusetts Assisted Living Association** wants to **thank the 22,000 staff members who have made assisted living one of the safest environments for older adults in Massachusetts.**

It is heartwarming to see the impact that assisted living staff have had in keeping over 16,000 residents healthy and socially engaged through the challenges and change of the past two years. We could not have accomplished so much without the Unsung Heroes' constant diligence, selflessness, and commitment.

To families with a loved one in assisted living, or families considering assisted living, we thank you too for putting your trust in our teams who care so much.

Our staff, family members and residents are truly what make assisted living special.
