

UPDATE CORONAVIRUS (COVID-19)

Stay informed. Take precautions. Stay safe.

Dear Members,

As COVID-19 vaccine booster efforts are underway, EOEА wishes to offer support in order to ensure successful booster administration. They are requesting that all ALRs complete a brief survey so that they may identify where support is needed and to provide a high-level view of booster progress. **The deadline for completing this survey is EOD tomorrow (Friday, October 15th).** [Here is a link to the survey.](#)

Currently, booster shots are available only for Pfizer-BioNTech vaccines. More information regarding other booster formulas will be provided as they become available. The Pfizer-BioNTech boosters are available for individuals who have completed their initial series of vaccines at least 6 months ago and are:

- 65 years of age and older.
- 18–49 years of age and have underlying medical conditions.
- 18-64 years of age who are at increased risk for COVID-19 because of occupation or institutional setting, including front line essential workers and health care workers and individuals who reside in a skilled nursing facility or other congregate settings.

If you have any questions, please contact us at Mass-ALA@mass-ala.org

**The information provided in this COVID-19 update is solely for general informational purposes to assist in understanding the evolving guidance regarding the current COVID 19 public health threat. It is not intended to be a primary public health or medical resource but is provided as a clearinghouse for or compilation of various guidance issued by official and related sources.*
